Network of International Christian Schools (NICS) OASIS International Schools, Inc. Annual President's Report & State of the Mission Report

Network of International Christian Schools

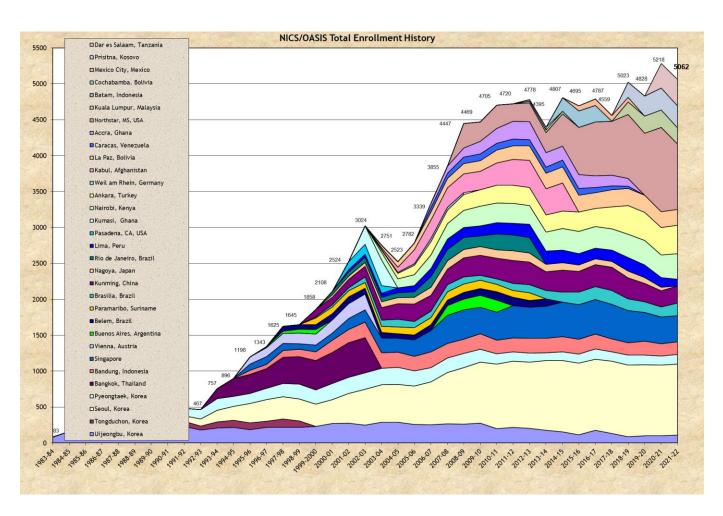

February 2022 NICS/OASIS State of the Mission

Historical Perspective

NICS operated as "Liberty Mission of Korea" from 1983 until 1990. Since its incorporation in 1991, NICS/OASIS has experienced tremendous growth. The network has included 32 schools, eleven of which are no longer with the organization (Bangkok, Pasadena, Vienna, Buenos Aires, Kumasi, Suriname, Rio, Belem, Cochabamba, Accra, and Mexico) and six which were closed (Germany, TDC, Batam, Kabul, Caracas, and Nagoya), bringing the present number of schools to 15, located in 13 different countries: Korea (3), Far East, Singapore, Malaysia, Indonesia, Kenya, Tanzania, Turkey, Peru, Bolivia, Brazil, USA (online school), and Kosovo.

Following is the numerical growth chart (enrollment) of NICS/OASIS schools since the inception of the first school in 1983:

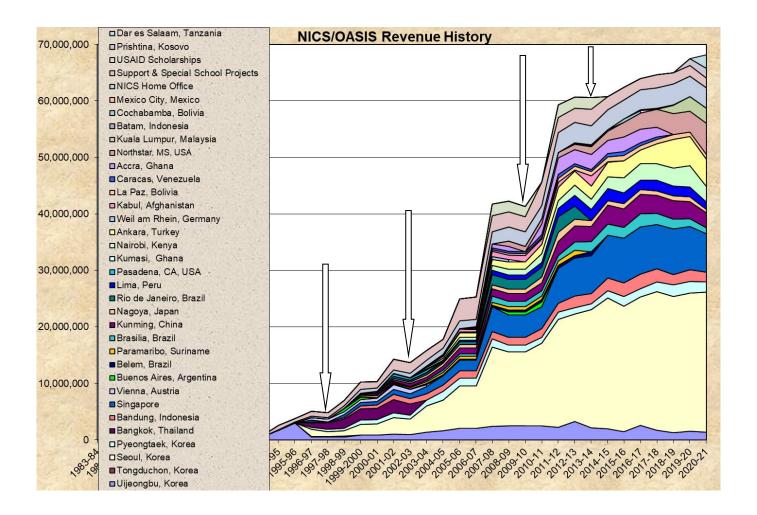

NOTE: Enrollment typically peaks in March; this chart is current as of February 1, 2022.

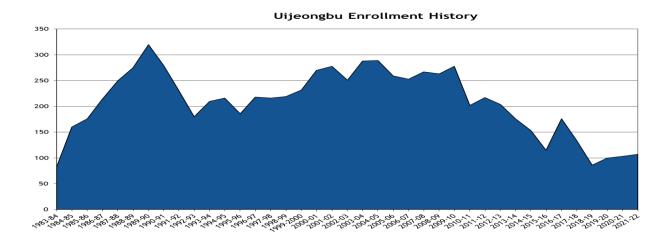

Historical Graph of Network Revenues

NICS/Oasis has experienced substantial growth through the years in the financial realm. In spite of the reality that there have been years when enrollment dropped (school closings, schools leaving the network, enrollment decreases in existing schools, etc.), revenues, thus far, have continued to climb, with only four slight declines in our history.

ASIA

Uijeongbu, Korea: 108

ICS, Uijeongbu, Korea
Established by NICS in 1983
Current Enrollment: 108
Annual Budget: \$1,837,859
School Website: http://ics-ujb.org/

President's Summary: Uijeongbu - Enrollment has started to increase again after several years of decline due to U.S. military posts closing in the area. We are striving to find all the components that will allow the school to continue. 2017-2020 were years of developing and implementing a new marketing strategy, which is now showing results; thankfully, the school is very close to enrollment needed for sustainability, and has not decreased, even in the midst of COVID.

Seoul, Korea: 983

Seoul Enrollment History

YISS, Seoul, Korea Established by NICS in 1990 Current Enrollment: 983 Annual Budget: \$25,256,858 School Website: http://www.yisseoul.org/

President's Summary: Seoul - 2021-2022 marks the 16th year of the 20-year lease agreement with the KFSF; enrollment is presently limited by MOE quotas; actual building capacity could allow 1050 students, but MOE approval for more students, while sought, has not yet been received. The school is generally accepted as one of the top-tier schools in Korea.

Pyeongtaek, Korea: 132

Pyeongtaek Enrollment History

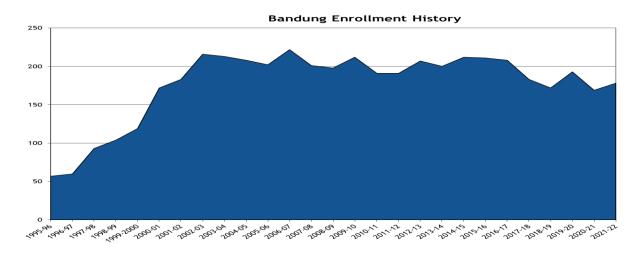

ICS, Pyeongtaek, Korea Established by NICS in 1990 Current Enrollment: 132 Annual Budget: \$1,761,622 School Website: http://www.icsptk.org/

President's Summary: Pyeongtaek - Impacted by COVID, enrollment has dropped slightly, but the general sense is that the school is starting to experience slow growth. Once the newly-built DoDDS schools are filled, and the Korean government's plan for "Super Pyeongtaek" begins in earnest, we expect even further growth. The appearance of the building really needs attention but is difficult to accomplish with tight budgets.

Bandung, Indonesia: 178

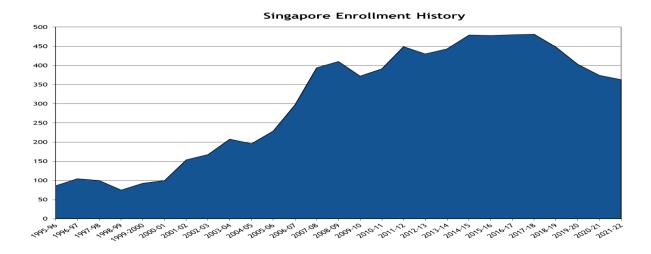

BAIS, Bandung, Indonesia Established in 1956; NICS school since 1995 Current Enrollment: 178 Annual Budget: \$1,843,470 School Website: http://www.baisedu.org

President's Summary: Bandung - The impact of COVID on schools in Indonesia has been devastating to many. The school is debt-free, but operational funds are shortchanged by low enrollment, primarily due to increased competition by well-funded Indonesian private schools. The school hopes to build a new auditorium in the near future.

Singapore: 359

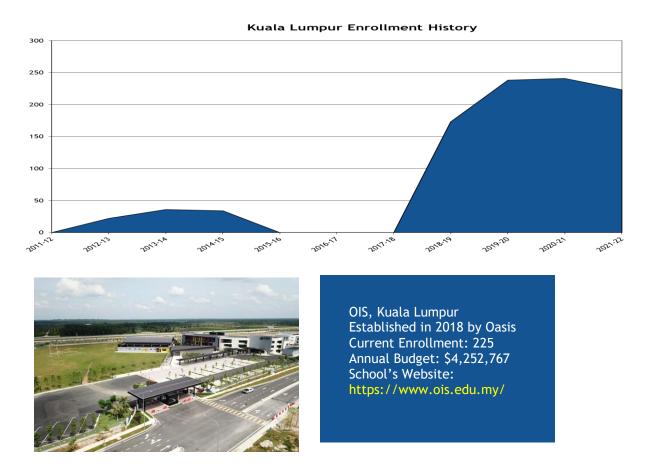

ICS, Singapore
Established in 1993;
NICS school since 1995
Current Enrollment:: 359
Annual Budget: \$7,412,750
School's Website:
http://www.ics.edu.sg

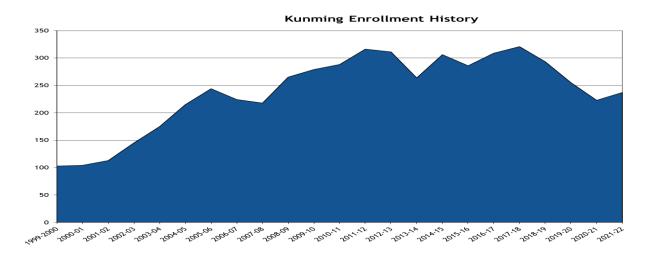

President's Summary: Singapore - The capacity of the facility is almost 500 students; larger/better facilities are desperately needed. The school continues exploring every possibility of relocation to larger facilities, but this must be done in total cooperation with the Singapore government. Present facilities are old. Competition among international schools in Singapore is quite intense. The school simply has no place to grow unless a new site can be obtained.

Kuala Lumpur, Malaysia: 225

President's Summary: Kuala Lumpur - Entering into its fourth year, the school is not growing as expected due to COVID restrictions on foreigners entering the country. In January 2022 the borders opened to incoming students and new enrollment began once again. Building capacity is around 650 students. Marketing for enrollment continues, and an enrollment of greater than 400 would allow the school to operate within its budget.

Far East: 219

Far East Established in 1994; Oasis school since 1999 Current Enrollment: 219 Annual Budget: \$3,648,302

President's Summary: Far East - The school has had tremendous difficulty getting the staff back in country. The government has become very restrictive to foreigners. Because the school is the only registered international school in the area, the local government has been slow to accommodate the needs of the school in regard to dealing with COVID. Most teachers have been teaching from home—outside the country. This has negatively affected enrollment. We are exploring transitioning the school out of Oasis due to new restrictions on the school being managed by foreigner.

THE AMERICAS

Brasilia, Brazil: 177

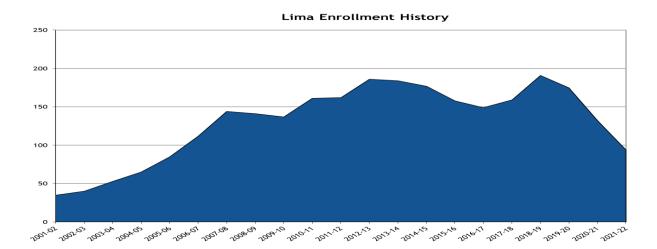

BIS, Brasilia, Brazil Established by NICS in 1999 Current Enrollment: 177 Annual Budget: \$1,423,863 School Website: http://www.bischool.com.br

President's Summary: Brasilia - The school struggled with serious financial concerns in regard to cash flow and low enrollment due to COVD. However, recently due to a successful marketing campaign and easing of COVID restrictions the school has begun to recover. We are hopeful that the school will make budget and obtain stability in the next school year.

Lima, Peru: 93

ICS, Lima, Peru
Established by NICS in 2001
Current Enrollment: 93
Annual Budget: \$1,328,185
School Website:
http://www.icslima.org/

President's Summary: Lima - COVID restrictions resulted in the school remaining closed from March 2020 until mid-November 2021. Many expats left the country during that time. The school is able to operate for an additional year or two using reserves, however we are exploring options should the market for an international not recover.

La Paz, Bolivia: 221

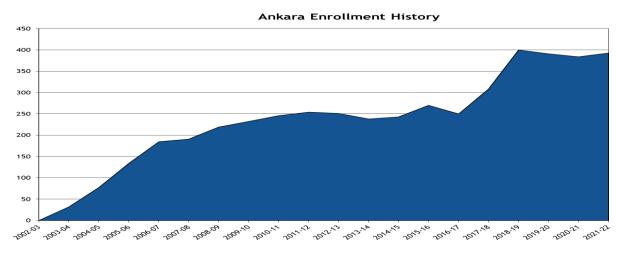

HIS, La Paz, Bolivia
Established in 2002;
NICS school since 2003
Current Enrollment: 221
Annual Budget: \$1,248,400
School Website:
http://www.highlandsinternational.org

President's Summary: La Paz -

The school's location is ideal, and recent development of the area has made access to the school much improved as well as increased the value of the land we own. A total rebuild of the campus has been planned and the campus is already much improved and more attractive, as the old "brick-factory look" of the school is disappearing. Socialistic government laws, however, make it financially challenging to operate in Bolivia, as tuition rates and salaries are controlled by the government. Recent government mandates require private schools to decrease their tuition by 35%--the local leadership team is trying to navigate the constant challenges of operating in Bolivia.

MIDDLE EAST/CENTRAL ASIA

Ankara, Turkey: 395

OIS, Ankara, Turkey Established by Oasis in 2004 Current Enrollment: 395 Annual Budget: \$4,916,000 School Website: http://www.oisankara.org/

President's Summary: Ankara - The school's reputation continues to bring in many new students, especially with the new campus, great improvements and upgrades on facilities continue. Enrollment is stable, with only a slight decrease with COVID. Enrollment is recovering following the easing of COVID restrictions. Capacity is approximately 700 students.

AFRICA

Nairobi, Kenya: 354

Nairobi Enrollment History

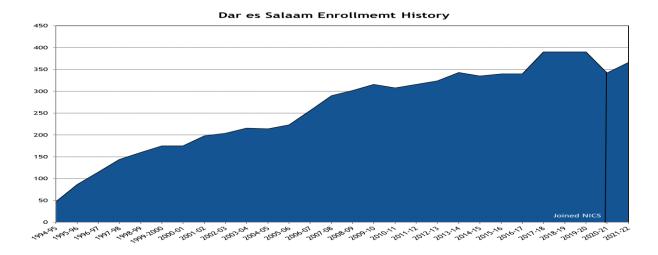

WNS, Nairobi, Kenya
Established in 1996;
NICS school since 2003
Current Enrollment: 354
Annual Budget: \$3,648,581
School Website:
http://www.westnairobischool.org/

President's Summary: Nairobi - The school continues has completed major campus construction, including new classrooms and athletic facilities. The school is now viewed as one of the top schools in Nairobi. Following the easing of COVID restrictions, enrollment has recovered and surpassed pre-COVID student numbers. WNS is now experiencing rapid growth in enrollment.

Dar es Salaam, Tanzania: 356

HOPAC, Dar es Salaam, Tanzania Established in 1994 NICS school since Jan 2021 (in transition) Current Enrollment: 356

Annual Budget: \$2,927,422

School Website:

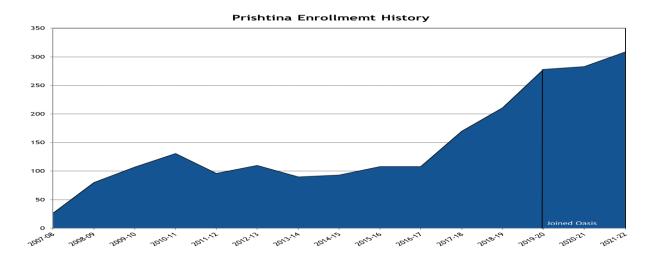

https://www.hopac.sc.tz/

President's Summary: Dar es Salaam - The newest school to the network, Haven of Peace Academy (HOPAC) was begun in 1994 with the primary purpose of educating missionary children. The school has grown into one of Dar's finest international schools, with a beautiful 17-acre campus which can accommodate 400+ students. A transition plan of 4-5 years has been established. The Transition Agreement will be renewed.

EUROPE

Prishtina, Kosovo: 304

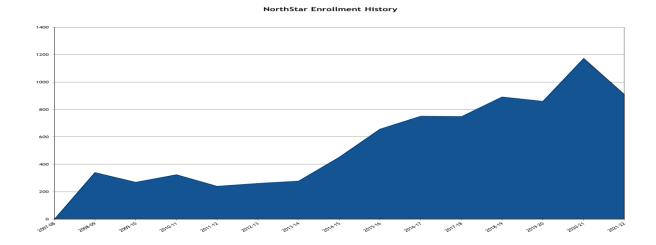

PHS, Prishtina, Kosovo
Established in 2007
Oasis school since 2018 (in transition)
Current Enrollment: 304
Annual Budget: \$1,577,974
School Website:
http:// prishtinahighschool.org

President's Summary: Prishtina - Located in Prishtina, Kosovo, the school is making good strides in its efforts to come into compliance with Oasis standards and practices. With Oasis leadership now in place at the school, full transition to the network is moving forward. This is one of our fastest-growing schools presently and has grown, even during COVID. We are working to ensure the the transition of most staff to Oasis. Transferring ownership will be determined at the appropriate time.

NorthStar Academy (on-line): FTE: 911 Total: 10,927

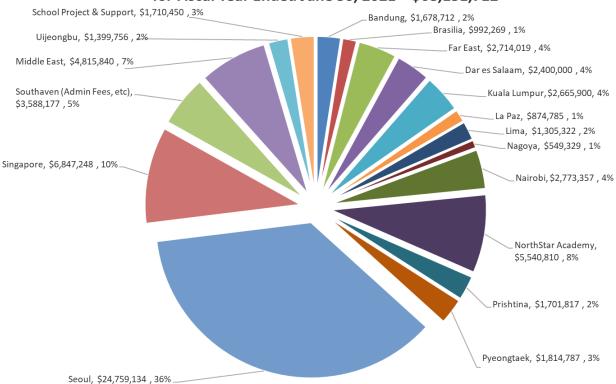

NorthStar Academy
Established: 1998
NICS school since 2008
Current Enrollment: FTE: 911
Total: 10,927
Annual Budget: \$5,115,766
School Website:
www.northstar-academy.org

President's Summary: NorthStar Academy - NSA is the only school in the network that benefitted from COVID. The school continues to see strong enrollment. Numbers are projected to be slightly lower this school year due to students returning to in-person learning and not needing an online option. However, enrollment is healthy. NSA continues to be rated among the best online high schools in the USA. *NOTE: Because NSA uses rolling enrollment, the numbers stated above will increase considerably by the end of the fiscal year.*

Network Financial Summary:

The percentage represents each school's part of the total revenue.

NICS/OASIS Worldwide Revenues for Fiscal Year Ended June 30, 2021 = \$68,131,712

The year 2021-2022 (to date) in Summary

School Data that relates to "Ends" Policies

Statistical Summaries from School Reports:

Citizenship

So far, in 2021-2022, the students in our schools come from 129 different countries. Since 1999, we have had at least one student from 172 countries.

Employment of Parents

Following are the top six employment categories represented by our parents and the percentages of students represented by that group.

Local Businessmen	29.13%
International Businessmen	25.83%
Missionary/Worker	16.30%
Educators (non-NICS/Oasis)	6.11%
Local Government	4.96%
Secular NGO	3.92%

Salvation Decisions We Are Aware Of:

So far this school year (Fall 2021 semester), we have seen the following salvation decisions:

Elementary	10
Secondary	8
Parents	0
Community	0
-	18

Since we started keeping statistics in 1999, we have seen God work in the following ways:

Salvations We Are Aware Of:

Elementary	1266
Secondary	1055
Parents	69
Community	947
•	3337

Parents Religious Preferences

Protestant/Evangelical	60.52%
Catholic	12.29 %
No Preference	11.56%
Muslim	2.96%
Buddhist	2.82%
Hindu	2.15%
Orthodox	1.19%
Atheist	1.01%

The following religions are represented by the parents in numbers less than 1%: Jewish, Mormon, Church of England, Shinto, Unification, Seventh Day Adventist, and Sikh.

Student Longevity

The following percentages represent the number of students that have attended our schools for the specified number of years.

1st year at the school 34 63%

1 st year at the school	34.63%
2 nd year at the school	20.33%
3 rd year at the school	12.83%
4 th year at the school	10.05%
5 th year at the school	6.39%
6 th year at the school	4.21%
7 th year at the school	3.28%
8 th year at the school	2.35%
9 th year at the school	2.33%
10 th year at the school	1.35%
11 th year at the school	0.98%
12 th year at the school	0.76%
13 th year at the school	0.33%
14 th year at the school	0.14%
15 th year at the school	0.05%

Graduate College & University Acceptance

Number of students we have graduated last year (14 schools reporting): 388 Percentage of graduates that will attend colleges & universities: 80% Colleges/Universities attended are listed in Appendix A.

Staff Longevity with NICS/Oasis

The current NICS/Oasis faculty and staff at our schools have been with us anywhere from 1 - 30 years, with the average being 5.16.

Staff Educational Experience

The current NICS/Oasis faculty and staff have 1 - 48 years of work experience in the field of education, with the average being 10.70.

Strategic Observations

Major Set-backs/Challenges

- 1. COVID. Non-NSA enrollments this year were down during COVID. Some schools are still recovering. This especially affected schools that were already struggling financially.
- 2. The influence in South America of socialism continues to create challenges for private education in general. Some countries are deprivatizing education in general. Recently, Bolivia has gone through a very unstable time. Government regulations continue to worsen, causing the school to struggle financially.
- 3. The KL Project remains a concern. COVID restrictions have stalled increase in enrollment. The school continues to require an infusion of funds to operate.
- 4. Lack of network systemic continuity; need for more centralization, especially in finances.

Major Overall Accomplishments

- 1. The reversal of COVID restrictions in most countries have resulted in enrollment recovery for most schools.
- 2. CARE Foundation is progressing well. The Fund was activated for disbursements in 2019.
- 3. The Office of School Operations has worked diligently with all network leadership in developing the Standards of Best Practice for school operations and academics. Additionally, new Leadership Competency Standards have been introduced for all network leadership teams ensuring continued professional growth and retention of leadership.
- 4. The Finance Team continues to work on an assessment tool for standards of financial excellence that will eventually be merged into the overall Standards of Best Practice for NICS/Oasis Schools.
- 5. The Mobilization Team continues to fill needed openings for the school year.

Major School Accomplishments

- 1. Major School Advances:
 - a. As recovery from COVID restrictions continues, three schools are experiencing growth or are at near-capacity: Brasilia, Dar es Salaam, Seoul, Nairobi, NorthStar, Prishtina.
 - b. Progress is being made on the transition for: Dar es Salaam, Prishtina
- 2. Overall healthy enrollment and income throughout the network: 6-Year Comparisons:

Enrollment 16-17: 4787 (18 Schools) NICS Contributions \$3,455,090 Enrollment 17-18: 4559 (17 Schools) NICS Contributions \$3,546,587 Enrollment 18-19: 5023 (18 Schools) NICS Contributions \$3,185,125 Enrollment 19-20: 4828 (15 Schools) NICS Contributions \$3,454,137 Enrollment 20-21: 5285 (16 schools) NICS Contributions \$3,325,807 To Date:

Enrollment 21-22: 5062 (15 schools) NICS Contributions (est) \$3,495,198

3. Academic advancement as measured primarily by accreditation Accreditation Status of NICS/OASIS Schools - February, 2022:

School	Accreditation Status
Ankara	ACSI & MSA
Bandung	ACSI & WASC
Brasilia	ACSI & Cognia (AdvancED)
Dar es Salaam	ACSI & MSA
Kuala Lumpur	pre-accreditation work WASC
Far East	WASC
La Paz	ACSI & MSA
Lima	ACSI & MSA
Nairobi	ACSI & MSA
NorthStar	ACSI & Cognia (AdvancED)
Prishtina	Cognia (AdvancED)
Pyeongtaek	ACSI & WASC
Seoul	ACSI & WASC
Singapore	ACSI & WASC & EduTrust
Uijeongbu	ACSI & WASC

ACSI - Association of Christian Schools International

CIS - New England Association of Schools/Colleges/Counsel of International Schools

Cognita - Formerly AdvancED

EduTrust - Council for Private Education, Singapore Government

MSA - Middle States Association of Colleges and Schools WASC - Western Association of Schools and Colleges

Strategic Thinking/Planning Major Initiatives & Challenges

- 1. A new President has been chosen. This presents an opportunity for evaluation of the Network structure and operations.
- 2. The need is obvious that reserve funds be available for schools that experience unexpected drops in enrollment or other issues which cause financial crises. Closing schools is expensive; struggling schools do not often have adequate reserves for crises, so the network must take the ultimate responsibility when schools fail.
- 3. Having adequate numbers of qualified, loyal field leader candidates is always a challenge; identifying and nurturing emerging leaders is helping. We will seek to find ways to offer better compensation to school leaders. We will also be developing a new emphasis on leadership development that is formalized but personalized for every leader in the network; this process will require growth from all as well as accountability for all.
- 4. Financial restructuring/refining and financial development will be necessary as we grow and expand our operation to utilize venture capital & other investment funds. Strategic financial analysis, planning, and development will be necessary as we grow, requiring us to gain expertise in new arenas such as venture capital, private equity funding, etc., and also to be more systemic in our approach to school and Home Office financial operations.

Present Status of NICS/OASIS Schools:

The following represents the President's perspective as to how the present 16 schools exist in different stages of development, including facilities; I acknowledge this is subjective until we develop clear criteria upon which to base this conclusion.

Level 0 Pre- Project Stage	Level 1 Project Stage	Level II Develop- mental Stage	Level III Strengthening Stage	Level V Mature Stage	Level VI Advanced Stage
	Kuala Lumpur	Brasilia	La Paz	Bandung	Ankara
		Prishtina	Dar es Salaam	Pyeongtaek	Nairobi →
			Lima ←	Uijeongbu	NorthStar
			Far East 📥		Seoul
					Singapore

Observable Market Trends to Watch:

- 1. Worldwide **teacher shortages** & major expansion of international schools is clearly generating a concerning teacher shortage for our network.
- 2. The current international school market has become **highly-competitive**. For-profit models are increasingly popular in growing markets and educational groups now number over 30.
- 3. **Security** continues to be a major concern. We have schools in some vulnerable places in the world, and safety of students and staff is a major consideration.
- 4. All regional markets for potential schools are growing as national laws increasingly "open" the **student market to locals**. This results in more competition and also has a negative impact on our schools that have mediocre facilities. These schools will likely trend negatively if we do not upgrade to competitive standards. Reality: our schools are excellent; our facilities must be too.
- 5. Salvation of students & spiritual growth of our students continues.
- 6. **Staff longevity** is encouraging. (presently 5.16 yrs. avg.)
- 7. Our network schools are steadily **gaining respect** and recognition in our market. Some of our schools are now recognized as "top tier" schools in their region.
- 8. **Legal issues** must be given more priority than in past times, especially in Africa and South American schools.
- 9. There is a growing global **disillusionment** of conservative families in regard to morals, ethics, and values being taught at most international schools. This could work in our favor in the future.

Goals for The Upcoming Year

- 1. Onboarding of the new network President.
- 2. Search for and onboarding for new network VP of Finance.
- 3. Continue to strengthen current schools as recovery from COVID restrictions continue.

Network School Development: This Year's Projections/Goals/Priorities

6-Year Projections for Existing 15 Schools (submitted by directors)

Projected Enrollment:

	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27
